

AG RESCUE TRAINING

Emergency response to farm incidents remains a challenge to rescue services.

It is also challenging when fewer personnel in today's rural departments have agricultural backgrounds. This program is designed for Emergency Medical Technicians (EMTs) and fire rescue personnel to supplement basic emergency knowledge, skills, and ability with training for agricultural incidents.

This program will challenge your knowledge of specific farm incident situations while providing hands-on training and take-home-and-use information. **Workshops include:**

- **Tractor Rollover:** Overturn scenarios and stabilization techniques.
- **Equipment Extrication:** Incident size-up, extrication, and patient handling.
- **Manure Pit Rescue:** Confined-space rescue, air monitoring, SCBA, and rope systems.
- **Grain Bin Rescue:** Grain bin hazards, safety equipment, and rescue operations.
- **Large Animal Rescue:** Safe handling and rescue of large animals in emergencies.

Friday, October 23 • 5:00 — 9:45 p.m.
Mid-State Technical College • Marshfield Campus
2600 West 5th St, Marshfield, WI 54449
In-person attendance is recommended; however, virtual attendance is an option.

Saturday, October 24 • 7:00 a.m. — 4:30 p.m.
Heiman Holsteins
11875 Hwy 10 West, Marshfield, WI 54449
In-person attendance is required.

\$125 per participant • Register by October 9
Fee includes snacks, lunch, and all program materials.

Supported by the **Mike Biadasz Farm Safety and Education Memorial Fund** and the **National Farm Medicine Center**, the Agriculture Rescue Training program will provide your department with a **FREE 4-gas monitor** when you register three or more department members to the event.
